Backend – Java Developer

Hiring organization
Digital Vision EA Limited

Employment Type
Full time

Working Hours
8-5 Weekdays

Date posted
July 16, 2021

Description

We are looking for a Java Developer with experience in building high-performing, scalable, enterprise-grade applications.

You will be part of a talented software team that works on mission-critical applications. Java developer roles and responsibilities include managing Java/Java EE application development while providing expertise in the full software development lifecycle, from concept and design to testing.

Take the assessment:
https://assessment.testgorilla.com/testtaker/publicinvitation/76acd1ae-ce74-447c-a3ed-2f308b7e34bc

Responsibilities

1. Contribute in all phases of the development lifecycle
2. Write well designed, testable, efficient code
3. Ensure designs are in compliance with specifications
4. Prepare and produce releases of software components
5. Support continuous improvement by investigating alternatives and technologies and presenting these for architectural review
6.

Qualifications

1. BS/MS degree in Computer Science, Engineering or a related subject
2. Proven hands-on Software Development experience
3. Proven working experience in Java development
4. Hands on experience in designing and developing applications using Java EE platforms
5. Object Oriented analysis and design using common design patterns.
6. Profound insight of Java and JEE internals (Classloading, Memory Management, Transaction management etc)
7. Excellent knowledge of Relational Databases, SQL and ORM technologies (JPA2, Hibernate)
8. Experience in the Spring Framework
9. Experience as a Sun Certified Java Developer
10. Experience in developing web applications using at least one popular web framework (JSF, Wicket, GWT, Spring MVC)
11. Experience with test-driven development
12.
